SUMMARY

Full Stack Developer with experience building SaaS applications, landing pages, dashboards, forms, workflows, and backend integrations. I create web applications that connect systems, support business operations, and turn product ideas into working features. My goal is to build software that is practical, easy to use, and useful in real day-to-day work.

SKILLS

Languages: JavaScript , TypeScript
Framework and Libraries: Next.js, React, Tailwind, Nest.js, Supabase, TypeORM**,** Shadcn, Turborepo, React Hook Form
Tools: Git, GitLab, GitHub, Docker, Vercel, Wordpress, DBeaver, Insomnia, Jira

WORK EXPERIENCE

Rubeeks Technologies **Nov 2023 - Present**
Full Stack Developer *Philippines*

- Develop and maintain web apps, including landing pages, blog and SaaS application.
- Build and integrate backend features using NestJS, TypeORM, Supabase, and REST APIs.
- Contribute to monorepo-based development workflows using Turborepo, Git, Docker, and deployment tooling.

Concentrix **Sep 2018 - Feb 2023**
Senior Technical Advisor *Davao City, Philippines*

- Resolve escalated technical issues related to networking products, software, and services.
- Train support representatives and contribute to technical documentation to improve troubleshooting processes.

Easy World Technology L.L.C **May 2014 - May 2016**
Network Technical Support *Dubai, UAE*

- Provide on-field technical support in the UAE and remote support across the EU and Middle East.
- Configure networking products including developing AT commands for industrial cellular routers.

PROJECTS

Kayuno
In-development SaaS workspace for business operations
Next.js, React, TypeScript, Tailwind CSS, Turborepo, Supabase, MobX, shadcn/ui

- Building and prototyping a modular SaaS application with dashboards, invoices, contacts, workflows, forms, settings, roles, teams, and service management.
- Developed invoice creation prototypes with editable rows, drawer-based item editing, client information panels, and totals/tax/discount handling.
- Contributed to a Turborepo setup spanning a web app, landing app, mobile app, document renderer, Remotion app, and shared packages.

Notre Dame Schools of General Santos City Alumni Official Website [notredamegsc.org]
Wordpress, Woocommerce, Stripe, CSS, JavaScript, PHP

- Developed from scratch with minimal plugin use, utilizing code snippets to overcome plugin limitations and implement custom features in the blog, shop, and user account pages, achieving zero cost on paid plugins.

EDUCATION

Associate's degree in Software Development **March 2012**
AMA Computer Learning College General Santos City, Philippines
